DIED FROM INATTENTION

Clark Caryl Haskins, inventor of
Multiple Switchboard, Is
Dead in Chicago.

NOTED IN SCIENTIFIC WORLD

Dispatch Meager as to Cause of
Death—His Invention Is in
Use All Over the Civiliz-
ed World.

Chicago, Sept. 3.—Clark Caryl Has-
kins is dead from inattention at his
residence here. He was the son of R.
W. Haskins, A. M., a well known sci-
entist and writer. Mr. Haskins came
to Chicago in 1879. He was well
known in the scientific world as an in-
ventor and writer. His most noted
achievement was evolving the multi-
ple switchboard now used for tele-
phones all over the world, which makes
it possible to operate any number of
lines from the same exchange.

Stock Market Steady.

New York, Sept. 3.—The stock mar-
ket during the week developed few
changes of importance, although a
generally higher level of prices was at-

hours' service, considerably less than
is paid on the Manhattan lines.

WHAT'S IN A NAME?

New York Herald: The word chauff-
eur, meaning stoker, was satirically
applied by the French to the driver of
an automobile.

In Jefferson market police court the
other day Magistrate Breen expressed
the view that the supercilious attitude
of chauffeurs toward pedestrians and
ordinary drivers is due to the "high
sounding" name of their calling.

"It seems to me," said the magis-
trate, "that it would be a good thing
to change the aristocratic name of
chauffeur to something plainer, like
motorman or driver. Then the super-
iority will not be so apparent."

This opens up a psychological field
of inquiry too wide for us to enter
upon. Magistrate Breen, however, de-
clared that "only drastic laws and their
strict enforcement can do any good,"
and held for trial at special sessions
two persons charged with running ma-
chines at excessive speed in Fifth av-
enue.

That's practical. Any one who
"scorches" with a heavy machine
through the city's streets should not
be let off with a trivial fine, but should
be tried and punished. If that is done
it really won't make much difference
whether he calls himself an automo-
bilist, a chauffeur or just plain stoker.

THE FAMOUS RUSSIAN GENERAL KASHTALINSKY.

Major General Kashtalinsky is one of Russia's most capable commanders. A short
time ago he defeated a superior Japanese force in southern Manchuria, killing more
than 1,000 of them. Kashtalinsky, although essentially an aristocrat, is exceptionally
popular with his men. He is about 50 years of age.

tained. Trading was again only mod-
erately large and no less professional
than for a long time past. Some in-
crease of commission business was re-
ported. The strength of the United
States Steel stocks was noteworthy,
despite many rumors of pool disrup-
tions and price reductions. There was
extensive buying of Reading, Erie and
many other active railroad issues and
the leading industrials also participat-
ed in the activity and advance. Money
continues abundant and in very light
demand. Over year loans were made
during the week at unusually low
rates.

Brooklyn Not in It.

New York, Sept. 3.—Motormen and
other employees on the Brooklyn Ele-
vated railroad and the Kings County
Elevated Bridge railroad, which are a
part of the Brooklyn Rapid Transit
Company's system, are watching the
developments in Manhattan, but there
is little apprehension on their part that
they will be drawn into the threatened
strike here.

The Brooklyn motormen form a
branch of the Brotherhood of Locomo-
tive Engineers, but the conductors
gatemens, ticket choppers and other em-
ployees on the Brooklyn elevated roads
are not members of the Amalgamated
Street Railway Employees' Association
or any other organization. The Brook-
lyn motormen receive \$3 a day for 10

THE REAL TEST

Of Herpicide Is in Giving It a Thoro-
ugh Trial.

There is only one test by which to
judge of the efficiency of any article
and that is by its ability to do that
which it is intended to do. Many hair
vigors may look nice and smell nice,
but the point is—do they eradicate Dan-
droff and stop falling hair?

No, they do not, but Herpicide does,
because it goes to the root of the evil
and kills the germ that attacks the
papilla from whence the hair gets its
life.

Letters from prominent people every-
where are daily proving that Newbro's
Herpicide stands the "test of use."

It is a delightful dressing, clear, pure
and free from oil or grease.

be surprised, doubtless, to know that
in England a person can be sent from
one part of the kingdom to another by
mail—just as if he was nothing more
than a mere letter.

One day a man called at St. Martin's
le Grand with the object of consulting
a directory and finding the address of
a customer who lived in a remote part
of Balham. He was not acquainted
with the locality, and was most anxious
to see his customer at once. These
facts he mentioned to an obliging clerk
behind the counter.

He was at once informed that he
could be sent to the required address
by registered mail at a fee of six cents
a mile. The man gladly accepted the
offer, and in less than a minute found
himself in charge of a smart messen-
ger boy, who very soon guided him by
the shortest route to his destination.

The boy carried in his hand a printed
slip with the description of his
"mailed parcel" under the heading, "Ar-
ticle required to be delivered," and this
he required the man and customer to
sign before he left the latter's house.

What Is Life?

In the last analysis nobody knows,
but we do know that it is under strict
law. Abuse that law even slightly, pain
results. Irregular living means dis-
arrangement of the organs, resulting in
constipation, headache or liver trouble.
Dr. King's New Life Pills quickly ad-
justs this. It's gentle, yet thorough.
